

Estimating steroid hormone exposure: from the lab to clinical practice

Meet the expert symposium:
Prof. Brian Keevil (Manchester
University)

UNIVERSITEIT
GENT

On behalf of the Research Unit Endocrinology at Ghent University, we would like to invite you to the upcoming "Meet the Expert" symposium on steroid hormones on **October 24th from 2:00 PM to 4:00 PM** in the **Meeting Room Catori** on the campus of the Faculty of Medicine and Health Sciences (entrance 74, route 771). During this session, renowned Belgian and international researchers will present their research on steroid hormones in clinical practice. The program can be found below.

- Introduction
 - Prof. Dr. Bruno Lapauw (Ghent University)
- A clinical perspective on the Free Hormone Hypothesis
 - Prof. Dr. Jean-Marc Kaufman (Ghent University)
- Measurements of androgen exposure in practice
 - Dr. Nick Narinx (Catholic University Leuven)
- The importance and determination of clinical decision limits
 - Ir. Joeri Walravens (Ghent University)
- Introduction to the UZ Ghent Laboratory: workflow and methods
 - Dr. Tom Fiers (Ghent University)
- Novel insights into steroid hormone measurements in saliva
 - Prof. Dr. Brian Keevil (Manchester University)
